Dear Marcher,

Thank you for downloading the 2025 March for Life Travel Planner. Whether this is your first March for Life, or you have been attending for years, this is your guide to ensure your trip to Washington D.C. is a life-changing experience!

The annual March for Life brings together the pro-life movement in its entirety! Each year presents different challenges in the great battle of our time: changing our culture to make abortion unthinkable. We have heard from many of you that the work of building a culture of life has felt like an uphill battle since the overturn of *Roe*. Politicians who once stood firmly on pro-life principles now seem to be distancing themselves from our movement. At the same time, the acceptance and celebration of abortion can appear to be on the rise.

Onto that backdrop, this year's March for Life will include a return to our roots. And lots of stories! Why do each of us march? To remind the nation of the unshakeable truth that every human life, unborn and born, has profound dignity and unique value. Each baby in the womb deserves a chance to make the most out of life and is always worth fighting – and marching – for.

As we enter our 52nd year, the March for Life remains as crucial as ever – maybe even more so this year – serving as the largest and longest running human rights demonstration in the world, the one place each year that we can unite to show our unwavering support for the unborn and mothers, and advocate for the truth and beauty of a culture of life. By participating, you become a voice for the voiceless, a beacon of hope for the future, and an advocate for a culture that cherishes every life, no matter how small.

The 2025 March for Life will unite and rally us to build a brighter future for the unborn and their mothers. We invite you to join us to be part of this historic movement as we continue to shape a society that values and protects moms and babies.

Thank you for your commitment and dedication to the pro-life mission! Together, we will bring about a culture of life for generations to come.

For Life,

Jeanne F. Mancini

MARCH GUIDELINES

While walking and riding the metro in Washington, D.C., please be respectful of residents and commuters. You are a representative of the pro-life community.

Avoid engaging with counter-protesters. If they try to engage you, ignore them as best you can. However, if you are comfortable doing so, use your phone to video the situation. This is for your protection.

*How you carry
yourself can
change hearts
and minds.*

Do not leave trash or signs on the grounds of the National Mall, Supreme Court, or Capitol. This is our nation's capital, and we should treat it with dignity and respect.

Once again, please be respectful of all people and stay focused on the cause of promoting and celebrating life, lovingly and graciously.

MARCHERS AND MOST ESPECIALLY *young people!*

You are the heart of the pro-life movement; the best “ambassadors” for life! We are so very grateful for your witness and want to do everything possible to support and protect you as you stand for life at the 2025 March for Life.

Never forget you are a walking testimony for life and the pro-life movement. Your actions are an incredibly powerful declaration about the truth and beauty of life, and the inherent dignity of each human person.

We are proud of your witness and we need you! But, you should be aware that because of your courageous stance for life, you are held to higher standards. Your behavior is scrutinized, and you are targeted.

Please keep these higher standards in mind throughout the entirety of your visit to our nation’s capital for the March for Life. You should be guarded and know any moment of your trip could be captured on video.

Yet be not afraid! You are doing exactly what you should be doing! We need you, the unborn need you, and the world needs your positive hopeful witness! “Be who you are and you will set the world on fire.”
